☎ 7060843016

📍 luknow, India

Profile

I have keen interest in learning new technologies ,resently i have completed my A.I course ,I have good coding skills in real world problems,and algorithms.

Skills

C ,Java ,Python

problem solvings, algorithms,real world problems

DBMS

mysql (updation,creation,managing)query

WEB

Html5,css,designing

Machine Learning

modules,Algorithms

A.I

Tensorflow

Courses

Machine learning with python

2017

built projects and studied different algorithms

A.I, coursera

2020

building models from scratch ,transfer learning
,building classifiers,neural networks

Interests

- developing games ,Drawing sketch ,travelling

Education

B.tech Computer Science and Engineering, GLA University

2016 – 2020 | India

7.3 GPA

10th ICSE, St. Thomas College

2013 | lucknow

78.5%

12th ISC, St. Thomas College

2015 | lucknow

75%

Projects

Real world 3d game, Unreal engine ,blueprints,terrain ,map development

2018

The game was developed in 6 months

stock market prediction, neural networks

2019

Sign language detection, CNN models (vgg16,efficientnetb0,google net,resnet50)

2020

project leader,learnt different models and used
transfer learning and created a model

Publications

**A comparison for Deep Learning Models for
sign language recognition, International
Journal of Control and Automation vol 13
no.4**
